PROSPECTUS SUMMARY

This summary description about us and our business highlights selected information contained elsewhere in this prospectus or incorporated in this prospectus by reference. This summary does not contain all of the information you should consider before investing in our common stock. You should carefully read this entire prospectus and any applicable prospectus supplement, including each of the documents incorporated herein or therein by reference, before making an investment decision.

Overview

GCEH is a uniquely positioned, vertically integrated renewable fuels innovator producing ultra-low carbon renewable fuels from patented nonfood camelina varieties. Our farm-to-fuel business model is designed to allow greater efficiencies throughout the value chain, lowering our finished fuels’ carbon intensity and streamlining our operations at every step. Our patented camelina varieties are purposefully bred to increase yield, quicken maturity, and enhance tolerance to drought and pests. Today, GCEH owns the world’s largest portfolio of patented camelina genetics, and we contract directly with farmers around the globe to grow our proprietary camelina crop on fallow land so as not to displace food products. Once online, the 15,000 barrels per day (“BPD”) nameplate Bakersfield Renewable Fuels Refinery will sell up to its full production capacity, which will initially be limited to approximately 9,000 BPD due to a hydrogen constraint, of renewable diesel (“RD”) to ExxonMobil Oil Corporation (“EMOC”) through a pair of long-term supply agreements.

Our focus is to be an economically viable solution in reducing global greenhouse gas (“GHG”) emissions via sustainable, more environmentally friendly alternatives to conventional petroleum-based fuels. The three pillars of sustainability — environmental, social, and economic — anchor our business philosophy. Through the implementation of these principals across our vertically integrated asset platform, we seek to drive long-term stakeholder value while creating a positive impact on food security by easing the demand on food crops for fuel production. By creating additive feedstock volume into an undersupplied market, our platform positions us as a globally scalable solution to the “Food vs. Fuel” quandary, while allowing us to continuously lower the carbon intensity of our finished fuels. We believe we can eventually achieve “net zero” GHG footprint on all our finished fuels, including renewable diesel, renewable propane, renewable naphtha, and in the future, sustainable aviation fuel (“SAF”). By eliminating inefficiencies throughout the value chain and leveraging a vertically integrated model, we expect to maintain significant control of the full value chain which allows us to produce highly sustainable, low cost and high margin ultra-low carbon finished fuels.

Over the past 15 years we have developed a portfolio of proprietary elite varieties of *Camelina sativa* (“camelina”) to be used as a feedstock for our Bakersfield Renewable Fuels Refinery, providing us with feedstock certainty unmatched in the industry. Our camelina holds several advantages over traditional feedstocks, such as soybean oil, yielding additional Low Carbon Fuel Standard (“LCFS”) credits through a lower carbon intensity score, adding significant value to our end products. As a dryland farmed rotational crop grown on idle land, camelina does not impact food production or compete with other crops for scarce water resources. The cropland available for potential camelina production in the Great Plains and Pacific northwest totals approximately 19 million acres. The result of our vertically integrated farm-to-fuel strategy is a highly sustainable, low cost, and ultra-low carbon finished fuel.

Utilizing a vertically integrated farm-to-fuels strategy meaningfully differentiates our platform from our competition. Our strategy is to manage all aspects of the renewable fuels value chain: (i) our upstream operations, anchored in plant and soil science, develop and produce a patented, low cost, proprietary crop for use in our downstream operations; (ii) our midstream operations efficiently handle, aggregate, store, and transport feedstock to our downstream operations; and (iii) our downstream operations process and convert feedstock into drop-in renewable fuels at our Bakersfield Renewable Fuels Refinery. By eliminating inefficiencies throughout the value chains and leveraging a vertically integrated model, we have unparalleled oversight throughout the value chain to maximize margin generation through operational and logistical efficiencies while simultaneously minimizing feedstock costs and our GHG footprint.

RISK FACTORS

Investing in our common stock involves risks. Before deciding to invest in our common stock, please read carefully the risks and uncertainties described below and incorporated by reference in this prospectus or any prospectus supplement. These risks and uncertainties include those discussed in our Annual Report on Form 10-K for the year ended December 31, 2021 filed with the SEC on April 4, 2022 and our Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2022 and June 30, 2022 filed with the SEC on May 16, 2022 and August 15, 2022, respectively, which are incorporated herein by reference and may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future and any prospectus supplement related to a particular offering. See “Information Incorporation by Reference” and “Where You Can Find More Information.” These risks are not the only risks that we may face. Additional risks and uncertainties that we are unaware of, or that we currently deem immaterial, may also become important factors that affect us. If any of the risks or uncertainties described in this prospectus or our SEC filings or any such additional risks and uncertainties actually occur, our business, financial condition or results of operations could be materially and adversely affected which could cause our actual operating results to differ materially from those indicated or suggested by forward-looking statements made in this prospectus or our SEC filings or presented elsewhere by management from time to time. In that case, the trading price of our common stock could decline and you could lose all or part of your investment. See “Cautionary Statement Regarding Forward-Looking Statements” on page 2.

Risks Related to this Offering

The selling securityholders named in this prospectus have the right to acquire a significant number of shares of common stock upon the exercise of the Warrants, and any sale of such shares into the market in the future could cause the market price of our common stock to drop significantly.

The selling securityholders named in this prospectus may offer and sell up to 29,989,295 shares of our common stock upon the exercise of the Warrants. Sales of a substantial number of shares of our common stock in the public market by the selling securityholders named in this prospectus, or the perception that these sales might occur, could depress the market price of our common stock and could impair our ability to raise capital through the sale of additional equity securities. We are unable to predict the effect that sales by the selling securityholders may have on the prevailing market price of our common stock.

USE OF PROCEEDS

We are registering these shares of our common stock pursuant to registration rights granted to the selling securityholders in the EM RRA and the Lender RRA. We are not selling any securities under this prospectus, and we will not receive any of the proceeds from the sale or other disposition by the selling securityholders or their transferees of the shares of common stock covered hereby.

We have agreed to pay all costs, expenses and fees relating to registering the shares of our common stock referenced in this prospectus. The selling securityholders will

pay any brokerage commissions and/or similar charges incurred in connection with the sale or other disposition by them of the shares covered hereby.

We may, however, receive cash proceeds equal to the exercise price of the Warrants that the selling securityholder may exercise, to the extent any such Warrants are exercised for cash. The Warrants may be exercised for cash or by means of cashless exercise. If all of the Warrants are exercised for cash, then we will receive gross proceeds of approximately \$67,475,914. We expect to use any proceeds received by us from the cash exercise of these Warrants for general corporate purposes.

We cannot predict when or if these Warrants will be exercised, and it is possible that these Warrants may expire and never be exercised. The Warrants are exercisable under certain circumstances on a cashless basis, and if the Warrants are exercised on a cashless basis we will not receive any proceeds from the exercise of the Warrants. As a result, we may never receive meaningful, or any, cash proceeds from the exercise of these Warrants, and we cannot plan on any specific uses of any proceeds we may receive beyond the purposes described herein.

See “Selling Securityholders” and “Plan of Distribution” below.

The authority possessed by our Board to issue preferred stock could potentially be used to discourage attempts by third parties to obtain control of our company through a merger, tender offer, proxy contest, or otherwise by making such attempts more difficult or more costly. Our Board may issue preferred stock with voting rights, conversion rights, and other rights that, if exercised, could adversely affect the voting power of the holders of common stock.

Series C Preferred Stock

On February 23, 2022, we filed a Certificate of Designations of Series C Preferred Stock (the “Certificate of Designations”) with the Delaware Secretary of State pursuant to which we authorized the issuance of 145,000 shares of Series C Preferred Stock (“Series C Preferred”). The shares of Series C Preferred Stock have a stated value of \$1,000 per share for the purpose of calculating amounts payable upon liquidation, dissolution or winding up. ExxonMobil Renewables LLC (“EM Renewables”), a subsidiary of Exxon Mobil Corporation (“EMC”), purchased, and currently owns a majority of the issued and outstanding shares of Series C Preferred. The holders of the Series C Preferred Stock have the rights, preferences and privileges described in the following paragraphs.

Under the Certificate of Designations, the holders of the Series C Preferred are entitled to receive dividends at a rate of 15%, compounded quarterly; provided, however, until March 31, 2024 we may elect not to pay some or all of the accrued dividends in cash, in which case the unpaid dividends shall accrue and be added to the

original issuance price of the shares of Series C Preferred.

The shares of Series C Preferred are not convertible into shares of our common stock.

Except as otherwise required by law or with respect to certain protective provisions included in the Certificate of Designations, the holders of Series C Preferred shall have no right to vote on matters submitted to a vote of our stockholders. Notwithstanding the foregoing, so long as any shares of Series C Preferred are outstanding, without the prior written consent of EM Renewables we may not take certain actions, including the following: (i) amend our Certificate of Incorporation, our bylaws, the Certificate of Designations or the governing documents of our principal subsidiaries in a manner that would be adverse to any holder of such shares in any material respect; (ii) commence any proceeding or action under applicable bankruptcy law, (iii) enter into a change of control transaction, (iv) authorize or issue other securities or securities convertible into or exercisable for any equity security, in each case if such security is on parity with or senior to, the shares of the Series C Preferred, or increase the authorized number of shares of any such equity securities; (v) permit the Company or any of its subsidiaries to incur additional indebtedness in excess of \$15,000,000 other than indebtedness contemplated by our annual budget, (vi) declare any dividend on any securities that are on parity with, or junior to the Series C Preferred, (vii) increase the size of the Board, (viii) hire or terminate our Chief Executive Officer, Chief Financial Officer, or Executive Vice President, or materially change the authority or responsibilities of such officers, (ix) enter into certain related party transactions, or (x) adopt an annual operating budget, make material changes to that approved annual budget, or sell or pledge assets other than as provided in the approved annual budget, among other things. In addition, for so long as EM Renewables holds any shares of Series C Preferred, EM Renewables shall have the right, exercisable at its option, to appoint two directors to the Board and, if the Series C Preferred shares have not been redeemed prior to the fifth anniversary of issuance, or upon an event of default under the Certificate of Designations, EM Renewables will have the right to appoint a majority of the Board.

Upon the liquidation of the Company, available cash proceeds will first be distributable to the holders of the Series C Preferred until they have received an amount equal to the Corporation Redemption Price. The "Corporation Redemption Price" is an amount of cash that would have to be distributed so that the aggregate of all cash distributions paid to the holders of Series C Preferred since the date of issuance equals the greater of (i) the original issuance price, as adjusted, and (ii) (x) until the second anniversary of its issuance, an amount equal to 1.85 times the initial purchase price, as adjusted, and (y) from and after the second anniversary of its issuance, an amount equal to two times the initial purchase price, as adjusted.

The Certificate of Designations provides that we will have the right, at any time, to redeem/repurchase the outstanding shares of Series C Preferred (in increments of no less than \$25,000,000), for an amount equal to the Corporation Redemption Price.

- (1) Information concerning named selling securityholder or future transferees, pledgees, assignees, distributees, donees or successors of or from any such stockholder or others who later hold any selling securityholders' interests will be set forth in supplements to this prospectus, absent circumstances indicating that the change is material. In addition, post-effective amendments to the registration statement of which this prospectus forms a part will be filed to disclose any material changes to the plan of distribution from the description in the final prospectus.
- (2) Beneficial ownership is determined in accordance with the rules and regulations of the SEC. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, securities that are currently convertible or exercisable into shares of our common stock, or convertible or exercisable into shares of our common stock within 60 days of September 26, 2022 are deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person.
- (3) Assumes the sale of all shares of common stock being offered pursuant to this prospectus.

- (4) Pursuant to the terms of the Lender II Warrants, unless all of the Lenders as selling securityholders (together with any other "attribution parties") file any SEC reports required as a result of such selling securityholder and such other "attribution parties" collectively beneficially owning in the aggregate in excess of 4.99% of the number of shares of common stock, the Lender II Warrants shall not be exercisable by any selling securityholders if such selling stockholders together with any other "attribution parties" collectively would beneficially own in the aggregate in excess of 4.99% (the "Maximum Percentage") of the number of shares of common stock outstanding immediately after giving effect to such exercise. At any time, upon written notice to the Company, the selling securityholder may increase or decrease the Maximum Percentage to any other percentage; provided that any increase to the Maximum Percentage shall not be effective until the sixty-first (61st) day after such written notice is delivered to the Company. The percentages in this column reflect the percentage owned by each selling stockholder individually as if the Maximum Percentage has not been reached.
- (5) Exxon Mobil Corporation is the sole member of ExxonMobil Renewables LLC. 6,500,000 shares of common stock underlying the Tranche II Warrants are only deemed beneficially owned by Exxon Mobil Corporation, and not ExxonMobil Renewables LLC, because only Exxon Mobil Corporation, as the sole member of ExxonMobil Renewables LLC, has the power to control the exercisability of such warrants at its option.

Relationship with the Selling Securityholders

Other than as discussed below, no selling securityholder has had any position, office, or other material relationship with us or any of our affiliates within the past three years. Based on representations made to us by the selling securityholders, except as noted below, no selling securityholder is a registered broker-dealer or an affiliate of a registered broker-dealer.

The selling securityholders purchased 145,000 shares of our Series C Preferred Stock in the Preferred Stock Offering for \$145,000,000.

In connection with a securities purchase agreement dated February 2, 2022 (the "Purchase Agreement") that the Company entered into with EM Renewables and the Lenders, and in accordance with the Company's Certificate of Designations, on February 23, 2022 the Board appointed EM Renewables designees, Amy K. Wood and E. Nicholas Jones, to serve as directors of the Company. Ms. Wood and Mr. Jones are employees of EMC or one of its affiliates. Neither Ms. Wood nor Mr. Jones is a party to any current or proposed transactions with the Company for which disclosure is required under Item 404(a) of Regulation S-K.

The Company is party to a product take-off agreement, dated effective April 10, 2019, and most recently amended by Amendment No. 3, dated August 5, 2022, pursuant to which the Company and EMOC have an agreement whereby the Company agrees for a period of 66 months to a committed volume of 135 million gallons of renewable diesel for the first five years of the term and 67.5 gallons of renewable diesel for the final six-month period for the initial term. The Company and EMOC are further parties to a term purchase agreement, dated effective April 21, 2021 ("TPA"), as amended by Amendment No. 2 dated as of August 5, 2022 ("Amendment No. 2 to TPA") pursuant to which, among other things, the initial term of the TPA was extended by six months to 66 months and EMOC was granted rights to future U.S. federal credits, benefits or other incentives related to the production, manufacture, or sale of renewable fuels, including a national low carbon fuel standard (to the extent related to volumes of production sold to EMOC under the TPA).

The selling securityholders that are Lenders have agreed to lend us up to \$397.6 million in a senior secured loan evidenced by the Senior Credit Agreement, which loan is currently outstanding. On May 4, 2020, through our newly formed special purpose subsidiaries, we entered into the Senior Credit Agreement with a group of lenders pursuant to which the lenders agreed to provide us with a \$300 million senior secured term loan facility. The Senior Credit Agreement has been amended nine times, pursuant to which, among other things, the total amount available to us under the Senior Credit Agreement was increased from \$300 million to \$397.6 million. The selling securityholders in this prospectus currently constitute all of the senior lenders under the Senior Credit Agreement. Orion Energy Partners TP Agent, LLC acts as the administrative agent for the senior lenders in their capacity as lenders under the Senior Credit Facility. As of September 26, 2022, \$367.6 million has been borrowed under the Senior Credit Agreement. As of September 26, 2022, we have paid or accrued to such selling securityholders (in their capacities as lenders) an aggregate of \$61.1 million in interest and \$0.4 million in other fees.

The Senior Credit Agreement is secured by all of the assets of our Bakersfield Renewable Fuels Refinery and by all of the ownership interests of our subsidiaries that own the Bakersfield Renewable Fuels Refinery. The Senior Credit Agreement matures on November 4, 2026, and bears interest at the rate of 12.5% per annum. As additional consideration for the Senior Credit Agreement BKRF HCB LLC, one of our subsidiaries that is a party to the Senior Credit Agreement, issued its Class B Unit membership interests to the senior lenders. The Class B Units will provide the senior lenders with certain cash distributions in addition to the principal and interest payments required under the Senior Credit Agreement. Until the later of (i) seven years from the commercial operations date of the Bakersfield Renewable Fuels Refinery and (ii) the date the senior lenders have received two times the loan amount under the Senior Credit Facility (the "Termination Date"), the senior lenders, as holders of the Class B Units, are entitled to receive quarterly distributions of 35% of the free cash flow until the senior lenders have received (collectively, from these cash distributions plus all principal and interest on the senior loan) an amount equal to a 2X multiple of invested capital (two times the amount of the senior loan), for a total of up to \$795.2 million, and, if the Termination Date has not occurred, thereafter quarterly distributions of 5% of the free cash flow until the Termination Date.

-12-

Concurrently with entering into the Senior Credit Agreement, through our special purpose subsidiaries, on May 4, 2020 we also entered into a mezzanine credit facility ("Mezzanine Credit Facility") with a group of mezzanine lenders, including the Lenders, pursuant to which we had the right to borrow up to \$60 million. As of February 23, 2022, the selling securityholders also were all of the mezzanine lenders. Between May 4, 2020 and February 23, 2022, the Mezzanine Credit Facility was amended to increase the maximum amount available under the Mezzanine Credit Facility from \$60 million to \$67.4 million. We did not utilize the Mezzanine Credit Facility prior to February 23, 2022, no mezzanine loans were ever advanced to us under that facility, and we made no payments to the selling securityholders/mezzanine lenders under the Mezzanine Credit Facility. On February 23, 2022, the selling securityholders/mezzanine lenders assigned all of the rights and obligations under the Mezzanine Credit Facility to the Company and we assumed the obligations of the mezzanine lenders. As a result, since February 23, 2022 the selling securityholders no longer maintain any relationship with us under the Mezzanine Credit Facility. On February 23, 2022, GCEH fully funded the \$67.4 million mezzanine loan and became a lender to the subsidiaries.

PLAN OF DISTRIBUTION

We are registering the shares of common stock issuable upon exercise of the Warrants to permit the resale of these shares of common stock by the holders thereof, from time to time after the date of this prospectus. We will receive proceeds from the exercise of any Warrants (except where cashless exercise is permitted). We will not

receive any of the proceeds from the sale by the selling securityholders of the shares of common stock. We will bear all fees and expenses incident to our obligation to register the shares of common stock.

The selling securityholders may sell all or a portion of the shares of common stock held by them and offered hereby from time to time in one or more transactions directly or through one or more underwriters, broker-dealers or agents. If the shares of common stock are sold through underwriters or broker-dealers, the selling securityholders will be responsible for underwriting discounts or commissions or agent's commissions. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions, pursuant to one or more of the following methods:

- through one or more underwriters or dealers in a public offering and sale by them, whether individually or through an underwriting syndicate led by one or more managing underwriters;
- in "at the market offerings" within the meaning of Rule 415(a)(4) under the Securities Act, to or through a market maker or into an existing trading market, on an exchange or otherwise;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- through the writing or settlement of options, whether such options are listed on an options exchange or otherwise;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- short sales after the date the Registration Statement is declared effective by the SEC;
- in transactions through broker-dealers that agree with the selling securityholders to sell a specified number of such shares at a stipulated price per share;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The selling securityholders may also sell shares of common stock under Rule 144 promulgated under the Securities Act, as amended (the "Securities Act"), if available, rather than under this prospectus. In addition, the selling securityholders may transfer the shares of common stock by other means not described in this prospectus. If the selling securityholders effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling securityholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the shares of common stock or otherwise, the selling securityholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares of common stock in the course of hedging in positions they assume. The selling securityholders may also sell shares of common stock short and deliver shares of common stock, as applicable, covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling securityholders may also loan or pledge shares of common stock to broker-dealers that in turn may sell such shares.

-14-

The selling securityholders may pledge or grant a security interest in some or all of the preferred stock, preferred warrants, or shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending, if necessary, the list of selling securityholders to include the pledgee, transferee or other successors in interest as selling securityholders under this prospectus. The selling securityholders also may transfer or donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be included in the term "selling securityholders" for purposes of this prospectus.

To the extent required by the Securities Act and the rules and regulations thereunder, the selling securityholders and any broker-dealer participating in the distribution of the shares of common stock may be deemed to be "underwriters" within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed, which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling securityholders and any discounts, commissions or concessions allowed or re-allowed or paid to broker-dealers. Selling securityholders who are "underwriters" within the meaning of Section 2(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling securityholders will sell any or all of the shares of common stock registered pursuant to the registration statement, of which this prospectus forms a part.

The selling securityholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the rules and regulations thereunder, including, without limitation, to the extent applicable, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of preferred stock or common stock by the selling securityholders and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

We will pay all expenses of the registration of the shares of common stock, including, without limitation, SEC filing fees, fees and expenses of our legal counsel and accountants in connection with the registration, fees and expenses incurred in connection with listing the shares of common stock, and expenses of compliance with state

securities or “blue sky” laws; provided, however, a selling securityholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling securityholders against liabilities, including some liabilities under the Securities Act in accordance with the registration rights agreement or the selling securityholders will be entitled to contribution. We may be indemnified by the selling securityholders against civil liabilities, including liabilities under the Securities Act that may arise from any written information furnished to us by the selling securityholders specifically for use in this prospectus, in accordance with the related registration rights agreements or we may be entitled to contribution.

Once sold under the registration statement, of which this prospectus forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.
